

Daniel S. Pedersen

Process Engineer

Profile of February 2011

Daniel S. Pedersen has worked at ETP consult since 2009 as a process engineer.

I am specialized in providing high voltages engineering services for voltage levels from 0,4 – 132 kV. My focus is automation and process planning.

By combining technical overview, computer skills and practical experience, I aim at delivering significant Value Add into the projects.

My educational background is Electrician and Installation Engineer.

Work at ETP Consult 2009 – To date

As a process engineer at ETP consult, I primarily focus on:

- Project planning, counseling and supervision, power supply 0.4 - 60kV level.
- Simulation / design tools power factory and NAP.
- SCADA Systems (DNM, Compas, etc.)
- Programming and configuration of protection relays (10-60kV).
- Project planning / testing and tests of control / RTU and UPS switchboards.
- Projecting of main switchboards.
- Project management.
- Advanced communication system design.

Within tasks ETP Consult have had so far, I have largely worked with:

- Nukissorfiit, Nuuk
- Tele Greenland
- Renovation of burnt apartments in Struer
- Hospital in Nuuk
- And many ad-hoc projects.

Education

2007-2009	Certified installer, training at the Business Academy in middle Jutland
2004-2007	Apprenticeship for electrician at El-gaarden in Silkeborg

Courses and workshops

PCM600 Engineering

Programming of ABB protective relay, introduction course.

RTU for 650

Programming and installation of ABB RTU560 for data acquisition and communication with the SCADA.

Fire extinction:

Basic course in using fire extinguishers.

First Aid:

Basic course and follow ups every second year.

,

PC skills

Microsoft Project, Microsoft Word, Microsoft Excel, Microsoft Access, Microsoft Visio, Microsoft Outlook, Microsoft PowerPoint, AutoCAD, PCschematic, Caddy ++, DIALux, PowerFactory, NAP and misc. light applications.

Language skills

Danish: Native

English: Intermediate.

Scandinavian: Understand Norwegian and Swedish.
